

Junseong Ahn

ahn990423@gmail.com · [Portfolio](#) · [LinkedIn](#) · [Google Scholar](#)
Seoul, South Korea

Applied AI engineer with experience in embodied perception, autonomous systems, and real-world 3D vision deployment.

Education

Korea University — M.S. in Computer Science, GPA: 3.82/4.0

Jun 2024

Brigham Young University — B.S. in Applied & Computational Mathematics, GPA: 3.72/4.0

Apr 2020

Experience

Deep Learning Engineer — Imagoworks, Seoul, South Korea

Aug 2020 – Oct 2023

- Led development of **3D scan registration systems** deployed in clinical AI workflows
- Developed 3D deep learning models for browser-based and edge AI inference using WebAssembly and ONNX
- Built scalable pipelines for automated **3D scan processing** and alignment

Machine Learning Engineer Intern — Navier Boat, San Mateo, CA

Mar 2020 – Aug 2020

- Developed **embodied perception systems** for autonomous surface vehicles in real-world maritime environments
- Built **multi-sensor perception pipelines** integrating vision, radar, and Kalman filter-based tracking
- Supported deployment of **real-time autonomous systems** using CUDA, ROS, and AWS-based data pipelines

Deep Learning Researcher — PCCL, Brigham Young University

Feb 2019 – Apr 2020

- Developed **AI-based medical imaging systems** through international research collaborations
- Proposed and evaluated 20+ algorithms for analogical reasoning in word embeddings

Publications

- *Automated Detection of Dental Crown Finish Line, J Prosthet Dent, 2024*
- *GAN-based Dental Design Optimization, Journal of Dentistry, 2023*

Selected Patents

- **3D Medical Image Registration** — PCT/KR2024/095421
- **Automated 3D Scan Alignment** — PCT/KR2024/011839
- **3D Prosthesis Generation** — PCT/KR2024/005369

Honors & Awards

- Don Robinson Scholarship, Brigham Young University

Leadership & Service

Full-Time Missionary — The Church of Jesus Christ of Latter-day Saints
Busan Korean Mission | 2022–2024

Technical Stack

Python, C/C++, PyTorch, OpenCV, ROS, CUDA, ONNX, Docker, AWS, WebAssembly, JavaScript
